

OVERVIEW EFFECT

18TH-19TH OCT - LOCATION: NEW MARKET SQUARE

Overview Effect is a breath-taking outdoor spectacle that celebrates the ambition and technical achievement of the 1969 moon landing. From the surface of the moon, we share the view of the Apollo 11 astronauts, and understand their shift in understanding about the fragility of the planet we call home. Overview Effect is a psychedelic and atmospheric outdoor projection set to a stunning original soundtrack. It asks us to celebrate what the human race is capable of achieving, and consider the cost of the problems we choose to ignore.

SOCK-IT TO THE MOON

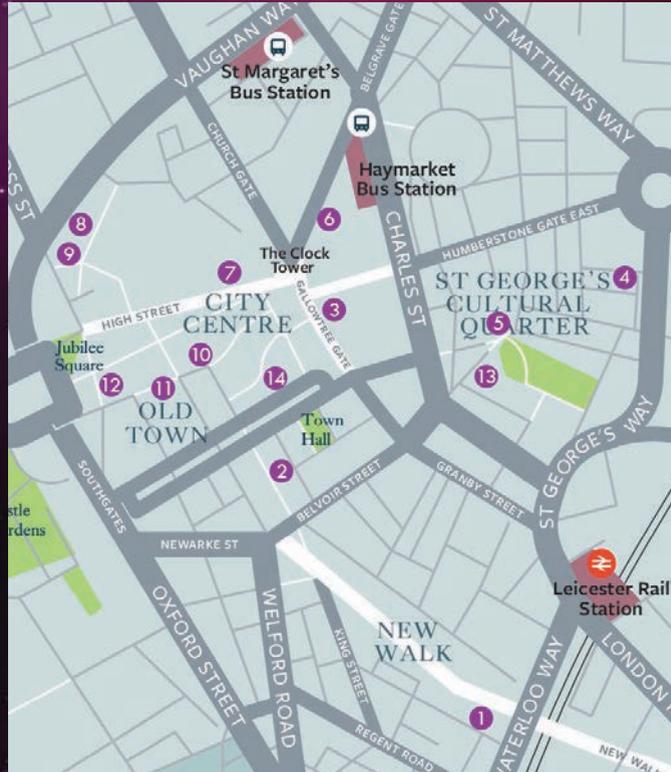

12TH OCT - LOCATION: LCB DEPOT 12-4PM

Time to get creative! Make your own sock puppet alien before taking it to the moon using green screen technology. In this free drop-in workshop, children can get creative making sock puppet aliens and recycled junk robots. Acted out against a green screen, they will then create moon and space stories as their characters explore digital scenes from MBD's new space themed projection show, Overview Effect. The resulting films will be live streamed to screens in the workshop space and Grays cafe.

BRICK LIVE® OUTER SPACE

LOCATION: LEICESTER CITY CENTRE

50 years ago humans raced to the moon and this October half-term Leicester will host its very own Space Race!

Your mission, should you choose to accept it, is to explore Leicester city centre and locate all 15 of the space-themed LEGO® brick models. Navigate your way around the city by downloading the free LoyalFree app on your smartphone and following the BRICKLIVE® Outer Space Trail – remember to stamp your space passport by scanning the QR Code at all the locations you visit!

There's a chance to win exciting prizes – the more QR codes you scan the more chance you have to win! Check the website for full prize details.

Share your pictures on social media using the hashtag #OneGiantLeapLeicester

RETRO ARCADE GAMES IN SPACE

LOCATION: LEICESTER CITY CENTRE

Get in touch with your inner gamer and play retro-style computer games inspired by the Moon landing!

The games will be hosted on large-scale screens across the city. Simply come along and connect with your smartphone to take part. Have some fun, challenge your friends, or try and finish the week with the highest score on our public leaderboard!

Check the website for the time and locations of the games:

MUSEUM OF THE MOON

LOCATION: LEICESTER CATHEDRAL

Luke Jerram's stunning Museum of the Moon will return to Leicester Cathedral this October, with each centimetre of the internally lit spherical sculpture representing 5km of the moon's surface. Measuring seven metres in diameter, the moon features detailed NASA imagery of the lunar surface for a truly awe-inspiring experience.
