

Find Your Way to the Festival

See if you can find your way to the festival on Castle Gardens from the Clock Tower. Can you follow the street parade from the festival to De Montfort Hall?

Festival Fun at Home

Colour me in

Why don't you draw in some acts – are there stilt walkers? Your favourite band? What other landmarks did you see on the way?

Why not try making your own maze around your house or maybe in your garden?

We cannot go out to any festivals or events at the moment but we would like you to share your own ideas and creativity with us.

A How to Guide on Creating Your Own Festival

Step 1 Location, Location, Location – Pick Your Venue

We plan events in all kinds of places like parks and the city centre. What locations in your home can you use? The kitchen, a handmade den, the garden or maybe even make a cardboard box festival.

Top tip - be creative with your spaces and have fun!

Step 2 What's On?

City Festival has performances from street artists like jugglers to acrobats, arts and crafts activities and comedians. Or maybe you're inspired by the main stage bands at Riverside Festival? Whatever it is, get working on your line up.

Why don't you do some of your favourite jokes for the crowd? A puppet show? Or a teddy bears picnic?

Step 3 Get Decorating

Get working on that festival vibe. Have you picked a theme? Why not bring that out in the way you decorate.

Here's some ideas:

Make some bunting or flags.

Design a poster to advertise your festival.

Could your theme include fancy dress?

Step 4 Final step

Gather your crowd - family, teddies and pets, let them know they're invited and most of all ENJOY!

Junk Model Boats

Can you make your own Riverside Festival boat? Have a look around the house for old items you can use as building materials. Once you think your design is in ship shape - the real test will be to see if it floats. Take a photo of your floating boat and share it with us on social media – ship wrecks included.

Share your home festivals and boats with Leicester Festivals & Events online
